

A short introduction

PRVNI CHODSKA is one of the three biggest distributors of roofing materials in the Czech Republic. It was founded in 1991 and for almost twenty years it has been focused on roofers and tinsmiths.

The headquarters is located in Domazlice in the western part of Bohemia, the 20 subsidiaries (two of them are franchise companies) are spread out around almost all the Czech Republic. The total turnover of PRVNI CHODSKA in roofing materials in 2013 was approximately 33.075.000 €. At the moment PRVNI CHODSKA has 180 employees.

We also have a daughter company organizing the biggest roofing exhibition in the Czech Republic (Střechy Praha), we prepare a roofing museum and develop more activities having something in common with the "world of roofs".

Everything we do is aiming at one goal – to establish PRVNI CHODSKA to be the best partner for roofers in the Czech Republic.
